Yours faithful  
H/

I am fourteen years old. I need this help because I am a needy person. I also need a lot of help from well wishes. My parents are poor. However I have other brothers and sisters. They are in both in primary and secondary school. There are no any support from well wishes through paying school fees. My neighbours are also poor. When I grow up I would wish to become a doctor and be a responsible person for our country. I would also like to help those but are needy like me. I will also help those who will need my assistance or who will ask for my need in case they need my help. More so who will need my help through school fees or other assistance. I would like also to help those who finish form four and help them go to Universities. If the Almighty lord helps to attain my dreams of becoming a responsible person in our country or a doctor. I would also help those who will be orphan children. I would also wish to grantee any child in society or in other country apart from Kenya. I would also wish not to be an independant person in our country. When I would become a doctor I will save many people life through care treatment and giving them a fair dose. I would also treat them in cheaply way. I would also become an active citizen through participating fully in all fields the government needs. I would also like to be an hardworking person and caring for each and every person in our country or society. In ten years to come to be an educated person because education is the key to success. I would also like to be wealthy person in

Country. Within ten years to come to be an hard-  
working person. I would also like to get good  
a good payments. However, in everything I do I wish  
to be a good model to others. I wish to become  
a good examples to others. To be an educated person  
in the society and in my country. I will also help  
those are both physical and emotional weak. I will  
also treat other people as my brothers and sisters.  
I will help them as you are still doing it. I wish,  
I will be an helpful person in the country. I  
pray all God almighty to help me achieve my  
dreams and be a good citizen. I will also take  
street children to their homeland and educate them.  
I would also help those who are still in bad temper  
and rise them in higher chances for their lives.  
In ten years to come I wish to be an hardworking  
person with good payment from the government.
