RE: MAUREEN ~~MAUREEN~~

I hereby certify that the above mentioned student, need scholarship Her father earns very little to support the family in regard to the high living standards in Kenya today.

She is one of our best candidates this year. Her behavior is very good Below is brief performance.

TERM I	TERM II	TERM III - 2011
300	347	371

Yours faithful
Husi
H.S.

I am glad to write this information to you. I will be more happy to be sponsored because I had passed through difficult times. At our home we have five children and two parents in total we are seven members.

My father works as a hawker in Rikomba Nairobi city, the income he earns is very little because he must pay house rent and he must pay rent for ground on which he sells his clothes. Moreover at home there is also another money that is needed for school fees for my brother, clothing food and many others.

My mother on those three recent years my mum had been feeling unwell. This cost my father a lot and many times my mother had been reporting to hospital after every three or two weeks every month. Last two months, my mother was serious unwell that made her to be admitted in hospital and I was left to look after the other two young siblings. This was painful for me to bear. This affected my education also my brother was sent for school fees for three weeks. Even now he has not yet completed his school fees for term 2 and term 3.

My father has spent a lot of money to overcome hospital bill. When you will be able choose me as one of the scholarship this will reduce the money my father would have spend next year for two children in secondary school.

When I will be in secondary school I will use

all my effort, knowledge and also my energy that I was given by my God to do all the best in my studies and be one of the famous people in my Country that I will be able to help all the needy children in my Community

I will struggle very much to get a better job like a secondary teacher or an Optician - that I will help my fellow citizens to curb the problems of eyes. When I will be one of those I will help my parents and I will be struggling very much to help the needy and orphans. May almighty God give me courage and wisdom of uniting my Community together. When I grow up and get the valued job I will fulfil my promise and I am sure the will of God will be done.

Forwarded for necessary
