

Dear Sir/Madam,

REF: APPLICATION FOR HELP IN SECONDARY SCHOOL

My name is purity [redacted] I am in class eight in St Mary mixed primary school. I am kindly looking forward for your help. We are eight in our family. I came from a very humble background where basic needs are rarely found.

My father is weak and frequently ill. He is suffering from various diseases. He is not able to do anything for the family's daily needs. He just stays at home. My mother is [redacted] hardworking to find food for us. We stay in Mold town. With my father while my mother goes to work on people's shambas. So that we can eat. Our situation was reinforced by 2007 post election violence where we lost our property which was our source of income and our house was totally burnt without rescuing anything.

I am the fifth born in my family. Our first born did her K.C.S.E in 2009 under sympathy kindness and strictness of school management and got a grade of (C+). She is at home unable to continue

with her education. Our second born finished her secondary education last year and passed her exam. Our third born is doing his K.C.S.E and he is doing his level best to pass the exam. The fourth born is in Mary Mount secondary school. She is being sponsored by will-wishers. My follower is in class seven and is being also sponsored. The last two are in class four and two respectively.

I am therefore doing my level best with positive mind that I am going to finish my high school and I will make my home a better place to live.

As per now I am working tirelessly. My average marks is 360. I am aiming at 400 mark as I continue working hard and praying to God. Any assistance given to me will be highly appreciated. May I thank you in advance waiting your kind consideration.

Yours faithful
