

Dear sir/madam

RE: APPLICATION FOR HELP IN SECONDARY SCHOOL

I am writing this letter to request you to assist or sponsor me. I am a girl in class eight Nyando. I am thirteen years old. In our family we are seven members.

My father died in April 2008. My mother got injured in a road accident when she was travelling from Kericho. Her leg and hand got injured. She cannot do much.

My second elder brother died in 2010. He was killed when he was coming home from his job. My elder brother did not go to school. He is working in another man's garden. He does not assist me anymore.

My elder sister is married by a policeman. She does not assist or help me. She does not buy even a pen, an exercise book or any basic need for me. She drinks alcohol.

Our two sisters who are now class eight drop-outs, are at home. One got married recently. The other one is living in Nakuru with my aunt. They did not go to secondary school, because they failed and they did not get any assistance. My younger brother is now in class three.

I am an industrious girl. In class, I am

always getting three hundred and sixty marks and above. But in my Kenya Certificate of Primary Education examination, I aim to get four hundred and above marks. I know that I am going to make it through hardwork,

I am hoping that you are going to give me a scholarship. I have faith in God that I going to be someone special in our family through hardwork. My dream is to be a neurosurgeon. I know that I will be if you will sponsor me. May the Lord bless you abundantly. Thank you!

Your faithfulness
