Dear sir/ madam

### REFLECTING FOR ASSISTANCE

How are you? I hope you are fine. I am 14 years and in class eight now. I am really happy to get this opportunity to talk to you. I hope that you may understand me. I would like to tell you the problems I have passed through in my lifetime.

I was born in 1998 in Molo. I am the first born in a family of three. During that time my father was a taxi driver. Our family was very happy that time because we had no quarrels on each other.

A few years later problems started getting into our family. This made our family to have quarrels many times. My father also became a drunkard. He started taking alcohol everyday. This affected us so much because all the money he had been working for the whole day he spent it on alcohol.

Quarrels led to so many problems in our family. My father used to arrive home at midnight extremely drunk and would start to quarrel. Somedays we even slept in the

old because my father sent us out.

My mother got really annoyed such that she had to leave our father with us. When my parents divorced I wasn't happy at all since I was used to stay with two parents and now it was one. When we came out we had nothing from our father's home. We had to go to our grandparents' home for few days so that our mother get employed.

When my mother got employed in a cafe she earned only a hundred and fifty shillings. This was for the whole day. My mother used this little amount of money to buy house hold items until it was enough. Few days passed and she got another job that she has it up to now that is selling coffee and chapati. She starts selling at about 7:00pm to 11:00pm.

I always work hard in my education in order to help my mother because she really cares about us. What stops her for doing great things for us is lack of money.

I pray that you may assist me in my education so that I may help other people including my mother. Thank you.

Yours sincerely,

Ujioje

HEZRON NJOROGE STD 8

This is to confirm that the above named is a pupil in St. Marys Mixed Primary School. He is living with his divorced mother who is very poor and can't afford to meet their family needs. He is the first-born in their family and thus needs assistance.

His performance in class is good. His average mark for the whole year is 400 marks out of the total mark of 500. His average mark in the previous year was 350 marks.

He is well-behaved, very disciplined, responsible and one with a vision. If assisted he will be a very useful member in the society and to their family.
