THE DIRECTOR,

NURU KWA WATOTO,

P.O. BOX 136,

MOLO.

Dear Sir/Madam,

REF: APPLICATION FOR ASSISTANCE

I'm asking for assistance from you.

I'm aboy aged sixteen years. I come from a poor family of nine members.

I have seven siblings. I'm the first born in our family. The second born is in class seven. The third one is in class five. And the fourth is in class three. And also the fifth one is in top class. Others have not yet started learning.

I started my school in KISSI and by that time there was a lot of problems. There was lack of school fees and sometimes lack of food. My parents could ask me to help them in working in the shamba in order to get daily bread.

Because of conflicts from our neighbours my parents were forced to look for a peaceful place. So, they struggled until they arrived at Molo. Here, they were welcomed by good samaritans.

Two months later, I joined a nearby school in order to continue with my education. The previous problems continued. This did not make my parents to

give up, They continued to do their best. Sometimes we are given food by well wishers and neighbours. Clothing too, has become a big problem. I used to walk barefooted to school. Sometimes I wore a torn uniform. On the other hand, teachers assist me in my needs. When our parents are sick, we are assisted by neighbours.

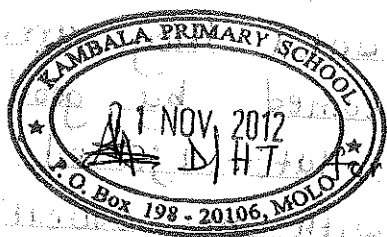

My parents are small scale farmers. They also work for the rich people in order to earn some income. They usually look for odd jobs which give them peanuts that at least give us some basic assistance. They don't mind what time to work, they work day and night.

Since I know where there is a will there is away, I work hard to achieve my goals. I usually do my best at my exams. The highest marks I have scored is 407. But, I also wish to score more than that.

I usually ask assistance from my teachers and also my parents. Even the leaders in our village too advise my parents on the way forward. I will thank Almighty if my request will be considered.

Thank you

Yours sincerely,  
  
JUSTINE RATEMO.
