

When I finished ~~my~~^{to} ~~studies~~ study and have an a job
I could accompany and educated people in the Community
to start sponsoring a ~~poor~~ needy children and I know
my efforts with bore fruits in my future time because
I ~~know~~ you shall choose me I will even be like you to
choose ~~one~~ children in this school. In four years coming I want to finish
~~my~~ studying and find a job ~~waiting to get a job~~ I will do a job
which every body in that Community will not neglect and even
will trust me of a good work I have done I know my God
will assist me to accompany many people to start good things
which would assist the child from poor family to be
educated.
