Dear Sir / Madam,

REF: ASSISTANCE FOR SECONDARY SCHOOL FEES

I am writing this request for assistance in Secondary School fees payment. I am a boy who is single parented, I have fifteen years old. I am sitting for my K.C.P.E Exams this year and My index number is nine.

I became a single parented child after the demise of my father. My father passed on this year after a long illness. I am born in a family of seven children. I am the fourth born child in my family. At this moment we are staying with my mother and with the other two siblings.

My mother is doing a casual labour and she needs to fetch foods, clothes and anything else we need. She is not very fortunate as she has no land of her own. We stay in a rental house, where we have to squeeze in to fit.

My elder brothers and sisters could not continue with their education because of lack of school fees. Due to that, my brothers started working in different places, one of my brother is working in Nakuru and the other is in Bunyore. My sisters are married but their life is like a living hell, they don't give support to my mother.

Changing Lives, One Child at a time

This will not make me despair because I am ambitious to pass well and Almighty Father will open the way.

I am humbly asking for assistance. If my request is awarded I will be so glad for that opportunity coming on with my education. I am very confident in myself and I believe ~~to you~~ that I deserve the chance.

Yours faithfully

GILBERT TENYO
