

old in class five, Irene Atieno ten years old class four and Fredrick Othrambo seven years old in nursery.

My mother is trying very hard to see that we are fed and pays school fees through a lot of hardships. Many of the time is when my brother is sent for fees, but she pays little by little. My brother and I go to work to help our mother earn a living when school is closed or weekends.

We live in rented houses. Sometimes we fail to pay the house rent on time. The landlord locks the house for us for the work my mother does, does not earn her much. She only get two hundred shillings a day and not everyday.

Lastly, I faithfully seek for your aid. I believe that you will assist me. My performance at school are not bad and that is why I believe that I will attain the marks that you need. In the last exam, I got three hundred and seventy nine marks. I hope to add five marks in every subject and I hope I will score more than of the last exams.

My faith is strong and I think I will achieve my goals.

May the Almighty God bless you and the work of your hands and make it prosper and increase in countless numbers. Thank you.

Yours Sincerely,

*Moses*
