Dear Sir / Madam,

REF: APPLICATION FOR ASSISTANCE IN SECONDARY
EDUCATION

It's my humble request that I seek for your assistance in my secondary school fees. I am a girl aged fifteen years old. I live in a small village called Mtirithia in Molo estate. I live with my mother and three sister with one brother. I am the second born in my family and preparing to sit for my K.C.P.E examination this year. My mother works as a casual labourer.

Since my father died, we have been going through many problems and challenges. The situation of our family was unexpected. My mother started working as a casual labourer so as to satisfy our needs. My brother who is in form one is struggling to do his best. He understands the situation my mother under going. Due to his hard working in his education, my aunt decided to help him in paying his school fees. These days he is assisted by her and other well wishers who are pleased by his performance.

Sometimes we are given food by well wishers and even by our neighbours. This does not make me

not to continue with my education. Sometimes we usually go to school without taking our breakfast and even without carrying any food for lunch. Further more, we ^{are} usually sent home due to lack of school examination fees, that is required. Sometimes we usually sleep even without eating food. My mother is struggling at least to get our basic needs.

Now I am terrified and confused because my dream or goal of becoming an accountant seems that it will not come true because of the problem that we are going through. I am looking forward to attain three hundred and fifty and above so that I can join a good high school.

I am working very hard at school and at home so that I can achieve my goal. Lastly, I truly need your assistance. May the Almighty God bless you abundantly as you prepare to assist me. Thank you.

Yours faithfully

~~Emma~~
