Dear sir / madam,

RE: SPONSORSHIP TO SECONDARY SCHOOL.

I am a candidate aged fifteen years who learns at St. Mary's Boys Primary School, I live with my family near K.A.C. junction. I had done ^{N.C.P.E} last year and got three hundred and thirty marks. This did not enable me to get a good secondary school. But due to lack of fees I did not join secondary school.

My mother has been trying to look for money but has not succeeded. Despite the fact that she has no job my father ran away and got married to another wife. All the responsibilities are left to my mother. Even the money she gets cannot satisfy our needs.

The ram-shackled house we are living in is very cold. Reading to me has been a big problem. I had started to lose hope on my education at the beginning of the year but my teachers called me back from home and counselled and I am now set to perform very well.

My sister and I repeated class eight and our two year old sibling has not yet joined school. All our teachers contributed money for buying uniforms, shoes and registration fees for examination. In spite of poverty that is languishing in our home, we respond by going to school everyday.

I am bitter but I have no otherwise but to continuing with my education. Please, I plead for your assistance because my dream of becoming a broadcaster will come to a reality if only you will sponsor me in secondary school.

Yours faithfully,

~~Salome~~
