

ALEXANDER MECHA,

ST MARY'S MIXED PRI SCHOOL,

PO BOX 92 CODE 20106

MOLO

19-10-2015

KURU CENTER

U.S.A

Dear Sir or Madam,

My name is Alexander Mecha. I learn at St Mary's mixed primary school. I am fourteen years old. I am in class eight. We live in Molo near the post office.

We are three children in our family and I am the second born. My elder studies in Kirobon Boys High School. My Sister who is the third born studies in Bishop Ndingi.

I am a single-parented boy since our father abandoned us when we were still young about seven years ago. We live with our Mother who is our caretaker. She does casual jobs here and there in order to feed us and pay rent. At times the landlord does not get the money on time and asks for it time and again.

I come to school severally without carrying food and at times you find that the night before we had slept without having food. My brother is ~~sent~~ home from time to time because of school fees.

Before our mother had taken us to a school that she could not afford she was working in Kenget Water Company. She no longer works there because she developed sickness that made her to resign. Since then, we have had unsolved financial problems. I am a repeater after having scored three hundred and thirty eight marks. I did not join Secondary because of financial instability.

I was almost giving up and saw as if my aspirations of being an engineer were being covered by a thick cloud of darkness. I want to help my mother when I grow up by educating my

Sister who is in Standard five.

~~to work~~ I am kindly requesting for Scholarship from Nuru Center. I promise to work extra harder if helped. I look forward to a favourable response

Any assistance accorded to Me will be highly appreciated.

Thanks in Advance

Yours faithfully,
AM

Alexander Mechia
