Dear sir / madam.

RE: ASSISTANCE FOR SECONDARY SCHOOL FEES.

I am a boy aged thirteen. I am an outstanding student with an academic excellence. I score more than three hundred and seventy marks. I want to achieve my dream of becoming a lecturer.

Our family is made up of five people. I have other three siblings and my mother is the sole bread winner and she is single. My elder brother is studying in secondary school and is educated by well wishers. The other two are twins.

My mother is a casual labourer and the little money she earns is not enough to provide for our basic necessities that sometimes we stay hungry during lunchtime and supper. We live in a single rental room which my mother is not able to pay and sometimes we are being thrown out of the house. Our life is too difficult to survive.

I humbly request and hope that you would accept me so as to continue with my education in high school. I look forward for your favourable consideration. Thank you in advance.
